Ideas/Concepts

Professionals

Who understand the needs of the field, but don't neccessarily have the time

Students

Who are unaware of the field, but have the time and ingenuity to find unique answers

Student Projects

Inspired by a better understanding of the needs of Pediatrics and with greater exposure, teams use CNMC and Shell support to act on ideas

Startup Shell

Coworking space, tools, and motivation to pursue device prototyping

CNMC Consortium

Succesful projects would be incorporated into the consortium's existing scenarios

Legend

- Current State
- Next Easiest State

Exposure

A website where ideas/ needs can be shared and voted for to expose the needs of the pediatric community
